

Welcome to Antwerp

Antwerp, a pocket-sized metropolis in the heart of Europe. A historical city, with magnificent churches, fascinating museums and beautiful heritage. Antwerp is also a creative city, with sublime architecture, new urban development and a constant drive for innovation: digital innovation, sustainable chemistry, creative services and health are the pillars on which its future economy is built. It's the oldest and largest diamond centre in the world and a must-visit for fans of fashion. Add to this a university known for its qualitative and innovative research, the second largest port in Europe, the 170-plus nationalities that make the city's population, a shopping paradise and a city where the good life is celebrated each day in the city's many restaurants and bars... and you realise: this city is well worth your visit and your stay.
